General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly List of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A different problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale, a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†)
indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 440, 79–2.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender’s risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with “L. C. card” prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards and requests for information about them should be addressed to the Card Division, Library of Congress, not to the Superintendent of Documents. Checks or money orders should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.
MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price $2.25 a year, including index; foreign subscription $2.85 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly index of the principal subjects is to be found at the end of each issue of the Monthly catalog.
Notes of General Interest

Employees' Compensation Bureau

The Bureau of Employees' Compensation was created by the Federal security administrator as part of the Office of Special Services, Federal Security Agency, to perform the functions performed by the Employees' Compensation Commission prior to the transfer of such functions to the administrator by Reorganization plan No. 2, effective July 16, 1946.

National Office of Vital Statistics

The National Office of Vital Statistics in the Office of the Surgeon General, Public Health Service, was formerly the Division of Vital Statistics in the Bureau of the Census, Department of Commerce. Under Reorganization plan no. 2, effective July 16, 1946, the functions of the Bureau of the Census with respect to vital statistics were transferred to the Federal Security Agency for administration by the Public Health Service.

Naval Research Office

The Office of Naval Research was established in the Navy Department by Public law 588, 79th Congress, approved Aug. 1, 1946.

COMMERCE DEPARTMENT

NOTE.—The Department of Commerce is engaged in numerous activities concerned with the promotion of the Nation's industry and trade. Through services of this character, the Department assists in simplification processes, the increase and improvement of production and the elimination of waste in production and distribution. Aids to industry include conducting investigations and research to facilitate the production, transportation, and sale of goods, and supplying trade information to American producers and exporters; encouraging invention by protecting inventors in their patent rights; enumerating, compiling, and disseminating population statistics as well as social, industrial, and fiscal data; establishing commodity weights, measures, and standards; fostering the Nation's civil air transportation system; and disseminating vital weather information. The free distribution of publications of the Department is confined almost entirely to libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., to whom remittances must be sent direct, as his office is not a part of the Department of Commerce.

Industrial statistics. Facts for industry [monthly, quarterly, and annual industrial statistics]. [iv]+355 p. 4° or oblong 8° [Processed.]

Note.—The Census Bureau collects and publishes monthly, quarterly, and annual statistics in processed form for numerous industries and commodities under the general title Facts for industry. Summaries of most of these statistics are published later in Survey of current business issued each month by the Bureau of Foreign and Domestic Commerce. The titles of these reports as issued for 1947 are listed under Industry, Facts for Industry.

Industry. Facts for industry [monthly, quarterly, and annual industrial statistics]. 4° or oblong S° [Processed.] 

Note.—The facts for industry releases are published with the objective of making available to manufacturers, trade groups and other users of statistical data, current figures that are useful to them in their operations and planning. Most of the publications can be used by manufacturers to gauge their position in relation to the experience of the industry as a whole with respect to production, shipments, orders, or inventories. The publications also present an accurate picture of the trends in the various industries over a period of time.

Most of these publications are based on surveys conducted by the Bureau of the Census as part of its current industrial statistics program; others are based on War Production Board surveys, some of which were conducted jointly with the Bureau of the Census or other Federal agencies.

Topographic quadrangle maps

NOTE.—The Geological Survey makes contoured maps—three-dimension topographic maps—which are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature within that area. The scales most commonly used are: 1:24,000 (1 inch = 2,000 feet), 1:31,680 (1 inch = ½ mile), 1:62,500 (1 inch = about 1 mile), and 1:125,000 (1 inch = about 2 miles). A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 20c. each. Except as otherwise indicated, a discount of 20 percent is allowed on order for maps, or for maps and geologic folios, that amounts to $1.00 at the retail price. In ordering, give the name and scale of each map and the State in which the area lies.

Note.—The Reclamation era is designed to assist water users on Federal reclamation farms. It enables settlers to properly use the water provided for irrigation by the 52 projects the Bureau of Reclamation has in operation. It also instructs the water users in diversifying and marketing their crops, thus assuring them of success on their farms. In addition to these features the magazine also contains articles on the progress of construction on those developments now under way, as well as a feature entitled Notes to contractors which is closely followed by contractors throughout the Nation.

The subscription price of the Reclamation era is $1.00 per year for persons residing in the United States and Canada; $1.50 a year for foreign subscriptions; a special rate of 50 cents a year is granted to members of water users’ associations. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Department of the Interior, Washington 25, D. C. All checks or money orders should be made payable to the Treasurer of the United States.

The Era was revived with the May 1946 issue after a wartime retirement of four years. Former subscribers will receive the issues due them.

FEDERAL REGISTER DIVISION

NOTE.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act (49 Stat. 560, as amended: 44 U. S. C. and supp. 591 et seq.), is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal Register. The daily issues of the Federal register are, in effect daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

L. C. card 36–26246

AE 2.7: 11/234–253

Note.—The Federal register publishes (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents or employees thereof; it also contains all Executive orders establishing, amending or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time to have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14, 1936, through Dec. 31, 1946, two hundred and forty-three (243) agendas have submitted documents for publication in the Federal Register. Available indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 15c, minimum (price varies in proportion to size): $1.50 per month; $15.00 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

RAILWAY MAIL SERVICE

TOPOGRAPHY DIVISION

Note.—A list of post route maps, prepared primarily for the postal service but available to the public, is given below. New editions are published about once a year. Each of these maps shows all post offices within the State and indicates how each is supplied with mail. County boundaries are shown and each county is named, but only the principal drainage features are delineated. These maps show no highways and only the railroads that carry mail. The maps listed at 60 cents each are single-sheet maps; those priced at $1.20 are 2-sheet maps.

Rural delivery routes are not indicated on the post route maps, but are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:65,560 (1 mile to the inch). Maps of more than 1,600 counties in the United States have been prepared by the Post Office Department only, and contact prints, made from the original maps, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C.

Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Contact prints of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C.

PRESIDENT OF UNITED STATES

Note.—The functions and duties of the Executive Office of the President were established by Executive order of Sept. 8, 1939. The principal divisions at present are as follows: The White House Office, the Bureau of the Budget, the Council of Economic Advisers, the Office of Government Reports, the Liaison Office for Personnel Management, and the Office for Emergency Management.

For information relating to the issuance of Executive orders and Proclamations of the President see, below, note under Executive orders.

Executive orders.

Note.—The Federal register act (49 Stat. 500 as amended; 44 U. S. C. and supp. 301 et seq.) provides in sec. 5 as follows: There shall be published in the Federal register all Presidential Proclamations and Executive orders, except such as have no general applicability and local effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof.

Those Executive orders and Proclamations published in the Federal register will not be issued separately, but title entries for such Executive orders and Proclamations, with reference to the Federal register, appear above and below.

The distribution of Executive orders and Proclamations was transferred beginning Mar. 12, 1936, from the Department of State to the Division of the Federal Register, National Archives. Free distribution will be only to appropriate agencies of the Government. The Federal register will be sold by the Superintendent of Documents, Government Printing Office, Washington 25, D. C., on a subscription basis of $1.50 per month or $15.00 per year.

Note.—The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad, and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the Smithsonian Institution. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed gratuitously by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but some of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes.

NATIONAL MUSEUM

Notus.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and are not generally based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished. The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

Note.—All publications of the Department (except laws, treaties, through Treaty series 994, and translations) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-rounded series, and each series has its own number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are first published in slip form in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled Treaty series and Executive agreement series have been discontinued. The Treaties and other international acts series has been inaugurated to make available in a single text the texts of treaties and other instruments (such as constitutions and charters of international organizations, declarations, agreements effected by exchanges of diplomatic notes, etc. cetera) establishing or defining relations between the United States of America and other countries. The texts printed in the present series, as in the Treaty series and Executive agreement series, are authentic and, in appropriate cases, are certified as such by the Department of State. The Treaties and other international acts series begins with the number 1501, the combined numbers in the Treaty series and Executive agreement series having reached 1500, the last number in the Treaty series being 994 and the last number in the Executive agreement series being 506. Spanish, Portuguese, and French translations, prepared by the Department's Central Translating Division, have their own publication numbers, running consecutively from 1. The Department of State Bulletin published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties, and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly published by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, Federal register.

TARIFF COMMISSION

TAX COURT

Note.—The Court's reports are first promulgated in leaflet form, designated as "advance sheets." At the end of each month, these advance sheets are consolidated into pamphlet form and published as "advance parts." Later, the advance parts are consolidated and issued in bound volumes. A list of memorandum opinions is included in each volume. Both the advance and the advance parts are sold on subscription by the Superintendent of Documents, Government Printing Office, Washington 25, D. C. The subscription price of the "advance sheets" is $2.25 per volume, foreign subscription, $2.85; single copies usually 5c. The "advance parts," or monthly consolidations are sold as follows: $1.25 per volume, foreign subscription, $1.85 (single copies vary in price). The price of the bound volume will be given upon application.

Note.—This "advance part" or "consolidated issue" contains a month's decisions and is issued in addition to the separate opinion or "advance sheets." Later, bound volumes, containing table of contents and index, will be issued, the price of these being given at the time of publication.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly List of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale, a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†)
indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e.g., H. rap. 2, 80–1.

Do not use the L. C. card number in ordering a publication.

**How to Remit**

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender’s risk. Foreign remittances should be made either by international money order or draft on an American bank.

*Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.*

For the convenience of the general public, coupons in the denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

**To Librarians**

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

**Library of Congress Cards**

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with “L. C. card” prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards and requests for information about them should be addressed to the Card Division, Library of Congress, not to the Superintendent of Documents. Checks or money orders should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.
The Monthly catalog is sold on subscription, price $2.25 a year, including index; foreign subscription $2.85 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly index of the principal subjects is to be found at the end of each issue of the Monthly catalog.
Notes of General Interest

Congressional Committees

Under provisions of the legislative reorganization act of 1946 (Public law 601, 79th Congress, approved Aug. 2, 1946) the following standing committees of the Senate were created: Armed Services, Interstate and Foreign Commerce, Labor and Public Welfare, Public Lands, Public Works, and Rules and Administration.

Under provisions of the same act the following standing committees of the House were created: Armed Services, Education and Labor, House Administration, Post Office and Civil Service, Public Works, and Veterans’ Affairs.

Council of Economic Advisers

The Council of Economic Advisers was established in the Executive Office of the President by Public law 304, 79th Congress, approved Feb. 20, 1946.

Farmers’ Home Administration

The Farmers’ Home Administration was established in the Department of Agriculture in accordance with Public law 731, 79th Congress, approved Aug. 14, 1946. The same law abolished the Farm Security Administration whose functions, etc., were merged into the Farmers’ Home Administration on Nov. 1, 1946.

Federal Supply Bureau

By order of the Secretary of the Treasury, published in the Federal register of Nov. 20, 1946, the name of the Procurement Division of the Treasury Department was changed to the Bureau of Federal Supply, to become effective on Jan. 1, 1947.

National Wage Stabilization Board

The National Wage Stabilization Board was established in the Labor Department by Executive order 9672 of Dec. 31, 1945. It is terminated effective Feb. 24, 1947, by Executive order 9809 of Dec. 12, 1946.

Temporary Controls Office

The Office of Temporary Controls was established within the Emergency Management Office of the Executive Office of the President by Executive order 9809 of Dec. 12, 1946, through the consolidation of the following agencies: the Office of War Mobilization and Reconversion, the Office of Economic Stabilization, the Office of Price Administration, and the Civilian Production Administration.

COMMERCE DEPARTMENT

Note.—The Department of Commerce is engaged in numerous activities concerned with the promotion of the Nation’s industry and trade. Through services of this character the Department assists in simplification processes, the increase and improvement of production and the elimination of waste in production and distribution. Aids to industry include conducting investigations and research to facilitate the production, transportation, and sale of goods, and supplying trade information to American producers and exporters; encouraging invention by protecting inventors in their patent rights; enumerating, compiling, and disseminating population statistics as well as social, industrial, and fiscal data; establishing commodity weights, measures, and standards; fostering the Nation’s civil air transportation system; and disseminating vital weather information. The free distribution of publications of the Department is confined almost entirely to libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., to whom remittances must be sent direct, as his office is not a part of the Department of Commerce.

Topographic quadrangle maps

Note.—The Geological Survey makes contoured maps—three-dimension topographic maps—which are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature within that area. The scales most commonly used are 1:12,500 (1 inch = 2,000 feet), 1:24,000 (1 inch = ½ mile), 1:62,500 (1 inch = about 1 mile), and 1:125,000 (1 inch = about 2 miles). A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 20c. each. Except as otherwise indicated, a discount of 20 percent is allowed on an order for maps, or for maps and geologic folios, that amounts to $10.00 at the retail price. In ordering, give the name and scale of each map and the State in which the area lies.

FEDERAL REGISTER DIVISION

Note.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act (44 U. S. C., and supp. 301 et seq.), is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

AE 2.7:12/1-22

Note.—The Federal register publishes (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents or employees thereof; it also contains all Executive orders establishing, amending or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14, 1936, through Jan. 31, 1947, two hundred and forty-three (243) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 15c. minimum (price varies in proportion to size): $1.50 per month; $15.00 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Railway Mail Service

Topography Division

Note.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,000 counties in the United States have been prepared by the Post Office Department and contact prints, made from the original maps on file are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Contact prints of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for Jan. 1947, page 103.

SMITHSONIAN INSTITUTION

Note.—The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No set of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad, and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the Smithsonian Institution. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed gratuitously by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but some of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, 25, D. C.

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes.

**STATE DEPARTMENT**

Note.—All publications of the Department (except laws, treaties, through Treaty series 994, and translations) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are first published in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled Treaty series and Executive series have been discontinued. The Treaties and other international acts series has been inaugurated to make available in a single series the texts of treaties and other instruments (such as constitutions and charters of international organizations, declarations, agreements) affecting the United States. The texts of the United States of America and other countries, are printed in the present series, as in the Treaty series and Executive agreement series, are printed in the present series, as in the Treaty series and Executive agreement series, and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled Treaty series and Executive series have been discontinued. The Treaties and other international acts series begins with the number 1,001, the combined numbers in the Treaty series and Executive agreement series having reached 1,994 and the last number in the Executive agreement series being 500. Spanish, Portuguese, and French translations, prepared by the Department's Central Translating Division, have their own publication numbers, running consecutively from 1. The Department of State Bulletin is issued weekly and indexed semi-weekly from June and December, contains the texts of the annually as of the dates of the last issues in June and December, contains the texts of the Department's publications for the preceding quarter. The list below frequently includes certain relevant publications issued by other agencies.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly List of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale, a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†)
indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e.g., H. rp. 2, 80–1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender’s risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with “L. C. card” prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards and requests for information about them should be addressed to the Card Division, Library of Congress, not to the Superintendent of Documents. Checks or money orders should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.
MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price $2.25 a year, including index; foreign subscription $2.85 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly index of the principal subjects is to be found at the end of each issue of the Monthly catalog.

COMMERCE DEPARTMENT

Note.—The Department of Commerce is engaged in numerous activities concerned with the promotion of the Nation's industry and trade. Through services of this character the Department assists in simplification processes, the increase and improvement of production and the elimination of waste in production and distribution. Aids to industry include conducting investigation and research to facilitate the production, transportation, and sale of goods, and supplying trade information to American producers and exporters; encouraging invention by protecting inventors in their patent rights; enumerating, compiling, and disseminating population statistics as well as social, industrial, and fiscal data; establishing commodity weights, measures, and standards; fostering the Nation's civil air transportation system; and disseminating vital weather information. The free distribution of publications of the Department is confined almost entirely to libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., to whom remittances must be sent direct, as his office is not a part of the Department of Commerce.

NATIONAL ARCHIVES
FEDERAL REGISTER DIVISION

Note.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act (49 Stat. 500, as amended; 44 U. S. C., and suppl. 301 et seq.), is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

L. C. card 36-26246

Note.—The Federal register publishes (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents or employees thereof; it also contains all Executive orders establishing, amending or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14, 1936, through Feb. 28, 1947, two hundred and forty three (243) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 15c. minimum (price varies in proportion to size); $1.50 per month; $15.00 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

**RAILWAY MAIL SERVICE**

**TOPOGRAPHY DIVISION**

*Note.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,300 (1 mile to the inch). Maps of more than 1,600 counties in the United States have been prepared by the Post Office Department and contact prints, made from the original maps on file are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices in the county and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Contact prints of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for Jan. 1947, page 105.*

Executive orders.

Note.—The Federal register act (49 Stat. 500 as amended: 44 U. S. C., and supp. 301 et seq.) provides in sec. 5 as follows: There shall be published in the Federal register all Presidential Proclamations and Executive orders, except such as have no general applicability and legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof.

Those Executive orders and Proclamations published in the Federal register will not be issued separately, but title entries or such Executive orders and Proclamations, with reference to the Federal register, appear above and below. The distribution of Executive orders and Proclamations was transferred beginning Mar. 12, 1936, from the Department of State to the Division of the Federal Register, National Archives. Free distribution will be only to appropriate agencies of the Government. The Federal register will be sold by the Superintendent of Documents, Government Printing Office, Washington 25, D. C., on a subscription basis of $1.50 per month or $15.00 per year.

SMITHSONIAN INSTITUTION

Note.—The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad, and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the Smithsonian Institution. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed gratuitously by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but some of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes.

NATIONAL MUSEUM

Note.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to establish lists of libraries, scientific institutions, and specialists, and to furnish copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

Note.—All publications of the Department (except laws, treaties through Treaty series 994, and translations) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are first published in slip form in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled Treaty series and Executive agreement series have been discontinued. The Treaties and other international acts series has been inaugurated to make available in a single series the texts of treaties and other instruments (such as constitutions and charters of international organizations, declarations, agreements effected by exchanges of diplomatic notes, etc.) establishing or defining relations between the United States of America and other countries. The texts printed in the present series, as in the Treaty series and Executive agreement series, are authentic and, in appropriate cases, are certified as such by the Department of State. The Treaties and other international acts series begins with the number 1501, the combined numbers in the Treaty series and Executive agreement series having reached 1500, the last number in the Treaty series being 994 and the last number in the Executive agreement series being 506. Spanish, Italian, Portuguese, and French translations, prepared by the Department's Central Translating Division, have their own publication numbers, running consecutively from 1.
The Department of State Bulletin published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties, and other material on the Department's

TAX COURT

Note.—The Court's reports are first promulgated in leaflet form, designated as "advance sheets." At the end of each month, these advance sheets are consolidated into pamphlet form and published as "advance parts." Later, the advance parts are consolidated and issued in bound volumes. A list of memorandum opinions is included in each volume. Both the advance sheets and the advance parts are sold on subscription by the Superintendent of Documents, Government Printing Office, Washington 25, D. C. The subscription price of the "advance sheets" is $2.25 per volume, foreign subscription, $3.00. Single copies usually 5c. The "advance parts," or monthly consolidations are sold as follows: $1.25 per volume, foreign subscription, $1.85 (single copies vary in price). The price of the bound volume will be given upon application.

Supply bulletins. [Processed.] $ Note.—Supply bulletins (SB) are issued in pamphlet or leaflet form. The purpose of the bulletins is to disseminate instruction and information pertaining to supply matters. Each bulletin bears the basic number or the abbreviation of the preparing agency or of the subject matter and a subnumber. Information appearing under basic number 9 was formerly issued in Ordnance field service bulletins some of which are still in effect.

Supply catalogs. War Department supply catalog.

Note.—All new and revised catalogs and changes to existing catalogs in this series now bear the heading War Department supply catalog, instead of War Department catalog. The change in title was authorized by Circular 383, 1946. Publications under both titles are entered below for convenience.

In the list below, the Changes are for catalogs which were issued under the Army Service Forces, and for these, the old classification, W109.14, is retained in order that they may be filed with the publications to which they belong.

Note.—The publications of the Mississippi River Commission, charged with the improvement of the lower Mississippi River and tributaries in the alluvial valley for flood control, and a navigable channel in the river below Cairo, consist of annual reports, annual pamphlets showing daily river stages, daily river discharge and river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the president, Mississippi River Commission. The Commission publishes maps and charts of the Mississippi River; folio of navigation maps is published annually of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, La., scale 1:62,500 (1 inch = about 1 mile); and wall maps in colors, of the lower Mississippi River Valley from the head of the St. Francis basin near Cape Girardeau, Mo., to the Gulf of Mexico, La., scale 1:250,000 (1 inch = 4 miles) and 1:500,000 (1 inch = 8 miles). Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Commission; the topographic quadrangle maps comprise over 220 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi and Louisiana adjacent to the Mississippi River and tributaries, with an area of over 52,000 square miles mapped. A folio of navigation maps of the Intracoastal Waterway from Port Arthur, Tex., to New Orleans, La., including route from Plaquemine to Morgan City, La., and Atchafalaya River and Basin, La., scale 1:62,500 is also published by the Commission. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents, Government Printing Office. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. Box 80, Vicksburg, Miss.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly List of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale, a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†)
indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e.g., H. rp. 2, 80–1.

Do not use the L. C. card number in ordering a publication.

**HOW TO REMIT**

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

*Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.*

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or in Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

**TO LIBRARIANS**

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

**LIBRARY OF CONGRESS CARDS**

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards and requests for information about them should be addressed to the Card Division, Library of Congress, not to the Superintendent of Documents. Checks or money orders should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.
MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price $2.25 a year, including index; foreign subscription $2.85 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the number as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly index of the principal subjects is to be found at the end of each issue of the Monthly catalog.

Transportation maps

Note.—These maps show in color, to a scale of 1:250,000, the Federal-aid and State highways, with status of improvement, principal connecting roads, railroads, and airports, canals and dredged channels—in short, all the media of organized transportation. They also show the boundaries or locations of National and States forests and parks. Indian reservations, military reservations and recreational areas with the roads leading to them. Special maps to a larger scale (1:125,000) printed as inserts on the regular sheets, where practicable, show in better detail the transportation routes within the larger metropolitan areas. The sheets are uniform in size 28X36 inches, oriented with the longer dimension east and west.

Minnesota, transportation map, highways, railroads, canals, air lanes, and dredged channels; highways corrected to Apr. 1, 1944. Scale 1:250,000, approximately 1 in. = 4 m. Topographic quadrangle maps

NOTE.—The Geological Survey makes contoured maps—three-dimension topographic maps—which are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature within that area. The scales most commonly used are 1: 24,000 (1 inch = 2,000 feet), 1: 31,680 (1 inch = 1/2 mile), 1: 62,500 (1 inch = about 1 mile), and 1: 125,000 (1 inch = about 2 miles). A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 20c. each. Except as otherwise indicated, a discount of 20 percent is allowed on an order for maps, or for maps and geologic folios, that amounts to $10.00 at the retail price. In ordering give the name and scale of each map and the State in which the area lies.

NATIONAL ARCHIVES

FEDERAL REGISTER DIVISION

Note.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act (43 Stat. 500, as amended: 44 U. S. C., and supp. 301 et seq.), is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

Note.—The Federal register publishes (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents or employees thereof; it also contains all Executive orders establishing, amending or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of Congress. From Mar. 14, 1936, through Mar. 31, 1947, two hundred and forty-three (243) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 15c, minimum (price varies in proportion to size): 81.50 per month; $15.00 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Government Printing Office, Washington 25. D. C.

TOPOGRAPHY DIVISION

Note.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1: 62,500 or 1: 65,500 (1 mile to the inch). Maps of more than 1,800 counties in the United States have been prepared by the Post Office Department and contact prints, made from the original maps on file, are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Contact prints of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for Jan. 1947, page 100.

SMITHSONIAN INSTITUTION

Note.—The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad, and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the Smithsonian Institution. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed gratuitously by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but some of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.
The only Smithsonian publications that are regularly issued as public documents are the annual report volumes.

STATE DEPARTMENT

Note — All publications of the Department (except laws, treaties through Treaty series 994, and translations) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are first published in slip form in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled "Treaty series and Executive agreement series have been discontinued. The treaties and other international acts series has been inaugurated to make available in a single series the texts of treaties and other instruments (such as constitutions and charters of international organizations, declarations, agreements effected by exchanges of diplomatic notes, et cetera) establishing or defining relations between the United States of America and other countries. The texts printed in the present series, as in the Treaty series and Executive agreement series, are authentic, and, in appropriate cases, are certified as such by the Department of State. The treaties and other international acts series begins with the number 1601, the combined numbers in the Treaty series and Executive agreement series having reached 1600, the last number in the Treaty series being 994 and the last number in the Executive agreement series being 506. Spanish, Portuguese, and French translations, prepared by the Department's Central Translating Division, have their own publication numbers, running consecutively from 1. The Department of State Bulletin published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties, and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter. The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly published by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, Federal Register.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly List of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale, a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†)
indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. rp. 2, 80–1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards and requests for information about them should be addressed to the Card Division, Library of Congress, not to the Superintendent of Documents. Checks or money orders should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.
MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price $2.25 a year, including index; foreign subscription $2.85 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the number as an Index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly Index of the principal subjects is to be found at the end of each issue of the Monthly catalog.

COMMERCe DEPARTMENT

Note.—The Department of Commerce is engaged in numerous activities concerned with the promotion of the Nation's industry and trade. Through services of this character the Department assists in simplification processes, the increase and improvement of production and the elimination of waste in production and distribution. Aids to industry include conducting investigations and research to facilitate the production, transportation, and sale of goods, and supplying trade information to American producers and exporters; encouraging invention by protecting inventors in their patent rights; enumerating, compiling, and disseminating population statistics as well as social, industrial, and fiscal data; establishing commodity weights, measures, and standards; fostering the Nation's civil air transportation system; and disseminating vital weather information. The free distribution of publications of the Department is confined almost entirely to libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., to whom remittances must be sent direct, as his office is not a part of the Department of Commerce.

Topographic quadrangle maps

Note.—The Geological Survey makes contoured maps—three-dimension topographic maps—which are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature within that area. The scales most commonly used are 1: 24,000 (1 inch = 2,000 feet), 1: 31,680 (1 inch = \( \frac{3}{4} \) mile), 1: 62,500 (1 inch = about 1 mile), and 1: 125,000 (1 inch = about 2 miles). A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 20c. each. Except as otherwise indicated, a discount of 20 percent is allowed on an order for maps, or for maps and geologic folios, that amounts to $10.00 at the retail price. In ordering, give the name and scale of each map and the State in which the area lies.

NATIONAL ARCHIVES

FEDERAL REGISTER DIVISION

Note.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act (49 Stat. 500, as amended; 44 U. S. C., and suppl. 301 et seq.), is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

L. C. card 36–26246

AE 2.7 : 12 / 64–85

Note.—The Federal register publishes (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents or employees thereof; it also contains all Executive orders establishing, amending or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14, 1936, through Apr. 30, 1947, two hundred and forty-three (243) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 15c; minimum (price varies in proportion to size); $1.50 per month; $15.00 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

TOPOGRAPHY DIVISION

Note.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,000 counties in the United States have been prepared by the Post Office Department, made from the original maps on file are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers all post offices within the county and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Contact prints of such maps are sold at 25 cents each. Orders for all post road maps, and contact by money order and addressed to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for Jan. 1947, page 108.

PRESIDENT OF UNITED STATES

Note.—The functions and duties of the Executive Office of the President were established by Executive order of Sept. 8, 1939. The principal divisions at present are as follows: The White House Office, the Bureau of the Budget, the Liaison Office for Personnel Management, the Council of Economic Advisers, the Office of Government Reports, and the Office for Emergency Management.

For information relating to the issuance of Executive orders and Proclamations of the President see below, note under Executive orders.

Executive orders.

Note.—The Federal register act (49 Stat. 506 as amended: 44 U. S. C., and supp. 301 et seq.) provides in sec. 5 as follows: There shall be published in the Federal register all Presidential Proclamations and Executive orders, except such as have no general applicability and legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof.

Those Executive orders and Proclamations published in the Federal register will not be issued separately, but title entries for such Executive orders and Proclamations, with reference to the Federal register, appear above and below.

The distribution of Executive orders and Proclamations was transferred beginning the Mar. 12, 1936, from the Department of State to the Division of the Federal Register, National Archives. Free distribution will be only to appropriate agencies of the Government. The Federal register will be sold by the Superintendent of Documents. Government Printing Office, Washington 25, D. C., on a subscription basis of $1.50 per month or $15.00 per year.

SMITHSONIAN INSTITUTION

Note.—The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad, and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the Smithsonian Institution. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed gratuitously by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but some of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes.

NATIONAL GALLERY OF ART

NATIONAL MUSEUM

Note.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology, zoology, geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title-page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

Note.—All publications of the Department except laws, treaties, through Treaty series 994, and translations thereof, have since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are first published in slip form in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled Treaty series and Executive agreement series have been discontinued. The Treaties and other international acts series has been inaugurated to make available in a single series the texts of treaties and other instruments (such as constitutions and charters of international organizations, declarations, agreements effected by exchanges of diplomatic notes, etc.) establishing or defining relations between the United States of America and other countries. The texts printed in the present series, as in the Treaty series and Executive agreement series, are authentic and, in appropriate cases, are certified as such by the Department of State. The Treaties and other international acts series begins with the number 1501. The combined numbers in the Treaty series and Executive agreement series have reached 1592, the last number in the Treaty series being 994 and the last number in the Executive agreement series being 596. Spanish, Portuguese, and French translations, prepared by the Department's Central Translating Division, have their own publication numbers, running consecutively from 1. The Department of State Bulletin published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties, and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly published by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, Federal register.

MISSISSIPPI RIVER COMMISSION

Note.—The publications of the Mississippi River Commission, charged with the improvement of the lower Mississippi River and tributaries in the alluvial valley for flood control, and a navigable channel in the river below Cairo, consist of annual reports, annual pamphlets showing daily river stages, daily river discharge and river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the president, Mississippi River Commission. The Commission publishes maps and charts of the Mississippi River: folio of navigation maps is published annually of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, La.; scale 1:62,500 (1 inch = about 1 mile); and wall maps, in colors, of the lower Mississippi River Valley from the head of St. Francis basin near Cape Girardeau, Mo., to the Gulf of Mexico, La.; scale 1:230,000 (1 inch = 4 miles) and 1:500,000 (1 inch = 8 miles). Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Commission: the topographic quadrangle maps comprise over 220 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi and Louisiana adjacent to the Mississippi River and tributaries, with an area of over 52,000 square miles mapped. A folio of navigation maps of the Intraconal River from Port Arthur, Tex., to New Orleans, La., including route from Plaquemine to Morgan City, La., and Atchafalaya River and Basin, La., scale 1:62.500, is also published by the Commission. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents, Government Printing Office. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly List of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale, a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†)
indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. rp. 2, 80-1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards and requests for information about them should be addressed to the Card Division, Library of Congress, not to the Superintendent of Documents. Checks or money orders should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.
MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price $2.25 a year, including index; foreign subscription $2.85 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the number as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly index of the principal subjects is to be found at the end of each issue of the Monthly catalog.

Transportation maps

Note.—These maps show in color, to a scale of 1 : 250,000, the Federal-aid and State highways, with status of improvement, principal connecting roads, railroads, and airports, canals and dredged channels—in short, all the media of organized transportation. They also show the boundaries or locations of National and State forests and parks, Indian reservations, military reservations and recreational areas with the roads leading to them. Special maps to a larger scale (1 : 125,000) printed as inserts on the regular sheets, where practicable, show in better detail the transportation routes within the larger metropolitan areas. The sheets are uniform in size 26×36 inches, oriented with the longer dimension east and west.

Topographic quadrangle maps

Note.—The Geological Survey makes contoured maps—three-dimension topographic maps—which are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature within that area. FEDERAL REGISTER DIVISION

Note.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act (49 Stat. 590, as amended; 44 U. S. C., and supp. 301 et seq.), is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 3 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

Code of Federal regulations. 1946 supplement to Code of Federal regulations of United States, containing codification of documents of general applicability and legal effect issued by Federal agencies and filed with Division of Federal Register during calendar year 1946, including Presidential Proclamations, Executive orders, and other Presidential documents in full text, with ancillaries and index: [book 1]; Title 1–8. 1947. x+1-1444 p. *Cloth, §§5.50. • Item 836 L. C. card 39-29399 AE 2.9: 946/bk.1

Note.—The Federal register publishes (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents or employees thereof; it also contains all Executive orders establishing, amending or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14, 1936, through May 30, 1947, two hundred and forty-three (243) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 15c, minimum (price varies in proportion to size) ; $1.50 per month; $15.00 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

SURFACE POSTAL TRANSPORT DIVISION

TOPOGRAPHY DIVISION

Note.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,600 counties in the United States have been prepared by the Post Office Department and contact prints, made from the original maps on file are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Contact prints of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for Jan., 1947 page 103.

Executive orders.

Note.—The Federal register act (49 Stat. 500 as amended: 44 U. S. C., and supp. 301 et seq.) provides in sec. 5 as follows: There shall be published in the Federal register all Presidential Proclamations and Executive orders, except such as have no general applicability and local effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof. Those Executive orders and Proclamations published in the Federal register will not be issued separately, but title entries for such Executive orders and Proclamations, with reference to the Federal register, appear above and below.

The distribution of Executive orders and Proclamations was transferred beginning Mar. 12, 1936, from the Department of State to the Division of the Federal Register, National Archives. Free distribution will be only to appropriate agencies of the Government. The Federal register will be sold by the Superintendent of Documents, Government Printing Office, Washington 25, D. C., on a subscription basis of $1.50 per month or $15.00 per year.

SMITHSONIAN INSTITUTION

Note.—The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad, and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the Smithsonian Institution. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed gratuitously by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but some of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes.

STATE DEPARTMENT

Note.—All publications of the Department (except laws, treaties, through Treaty series 994, and translations) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are first published in slip form in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled Treaty series and Executive agreement series have been discontinued. The Treaties and other international acts series has been inaugurated to make available in a single series the texts of treaties and other instruments (such as constitutions and charters of international organizations, declarations, agreements, effects of exchange of diplomatic notes, etc. Cetera) establishing or defining relations between the United States of America and other countries. The texts printed in the present series, as in the Treaty series and Executive agreement series, are authentic and, in appropriate cases, are certified as such by the Department of State. The Treaties and other international acts series begins with the number 1501, the combined numbers in the Treaty series and Executive agreement series having reached 1500, the last number in the Treaty series being 1594 and the last number in the Executive agreement series being 506. Spanish, Portuguese, and French translations, prepared by the Department's Central Translating Division, have their own publication numbers, running consecutively from 1. The Department of State Bulletin published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties, and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly published by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, Federal Register.

Note.—All new and revised catalogs and changes to existing catalogs in this series now bear the heading War Department supply catalog, instead of War Department Catalog. The change in title was authorized by Circular 383, 1946. Publications under both titles are entered below for convenience. In the list below, the Changes are for catalogs which were issued under the Army Service Forces, and for these the old classification, W 109.14 ;, is retained in order that they may be filed with the publications to which they belong. MISSISSIPPI RIVER COMMISSION

Note.—The publications of the Mississippi River Commission, charged with the improvement of the lower Mississippi River and tributaries in the alluvial valley for flood control, and a navigable channel in the river below Cairo, consist of annual reports, annual pamphlets showing daily river stages, daily river discharge and river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the president, Mississippi River Commission. The Commission publishes maps and charts of the Mississippi River; folio of navigation maps is published annually of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, La., scale 1:62,500 (1 inch=about 1 mile); and wall maps, in colors, of the lower Mississippi River Valley from the head of the St. Francis basin near Cape Girardeau, Mo., to the Gulf of Mexico, La., scale 1:250,000 (1 inch=4 miles) and 1:500,000 (1 inch=8 miles). Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Commission; the topographic quadrangle maps comprise over 220 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi and Louisiana adjacent to the Mississippi River and tributaries, with an area of over 52,000 square miles mapped. A folio of navigation maps of the Intracoastal Waterway from Port Arthur, Tex., to New Orleans, La., including route from Plaquemine to Morgan City, La., and Atchafalaya River and Basin, La., scale 1:62,500, is also published by the Commission. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents, Government Printing Office. General Information

The Superintendent of Documents, Government Printing Office, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly List of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale, a few of the more important ones, but if not priced the only possible source would be from your Congressman.
HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. rp. 2, 80–1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789–1906. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with "L. C. card" prefixed. Do not confuse with the Documents Office classi-
fication number given at the right. Orders for these cards and requests for information about them should be addressed to the Card Division, Library of Congress, not to the Superintendent of Documents. Checks or money orders should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.

MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price $2.25 a year, including index; foreign subscription $2.85 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the number as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly index of the principal subjects is to be found at the end of each issue of the Monthly catalog.
Notes of General Interest

Alien Property Office

The Alien Property Office was created in the Department of Justice by the
Attorney General pursuant to Executive order 9788 of Oct. 14, 1946, which
terminated the Office of Alien Property Custodian in the Office for Emergency
Management of the Executive Office of the President and transferred its functions
to the Attorney General, effective Oct. 15, 1946.

Troop Information and Education Division

The Information and Education Division in the War Department was redesignated Troop Information and Education Division by authority of War Depart-
ment Circular 100, dated Apr. 18, 1947.
